

Mpower 1500

DTG's Mpower Advantage

DTG's advanced LFP battery system provides over 1500 watt hours of capacity in a compact and ergonomic design, offering clean power for your devices, and comes with an industry-leading 5-year warranty.

Battery Specifications

- Voltage:** 24V
- Chemistry:** LiFePO4
- Charging Voltage Range:** 27.8 - 28.8
- Max Charge Voltage:** 29.4V
- Operating Voltage Range:** 20 – 28.8V
- kWh Capacity:** 1.53kWh
- Amp Hours Capacity:** 60Ah
- Max Continuous Discharge:** 120A
- Max Continuous Power:** 3000W
- Max Peak Discharge:** 350A (6 Seconds) Max
- Max Charge Current:** 100A
- Charge Temp Range (°C):** 0°C (32°F) / 55°C (131°F)
- Discharge Temp Range (°C):** -30°C (-22°F) / 55°C (131°F)
- Optimal Discharge Temp Range:** 15°C (59°F) / 35°C (95°F)
- Storage Temp:** -5°C (23°F) / 35°C (95°F) (Max 6 Months)

Safety Features

- BMS (Battery Management System)
- Over Voltage, Under Voltage, Over-Current
- (Thermal Management System), Safety Breaker (300A)

Mpower 1500 Battery

Battery Size

- Weight:** 38 lbs
- Width:** 10.25 in
- Length:** 7.1 in
- Height:** 9.25 in
