

## BSH-32B Premium Wireless Handheld Barcode Scanner

Star Micronics presents the BSH-32B, a premium wireless Bluetooth handheld barcode scanner designed for resilience and efficiency. This versatile scanner is an ideal solution for a wide array of business environments, including bars, nightclubs, cannabis dispensaries, and retail stores, especially where quick and accurate age verification and ID checks are essential.

The BSH-32B features a powerful CPU and high-resolution image sensor, enabling it to accurately read both 1D and 2D barcodes from multiple surfaces, including paper, uneven materials, or digital displays. A key functionality is its capability to read and parse data from IDs and driver's licenses, essential for businesses needing reliable age verification.

Designed for sustained use, it comes with a 2400mAh battery, supporting up to 12 hours of continuous operation, and a charging cradle for consistent readiness. The scanner leverages Bluetooth 5.0 technology for a stable wireless connection up to 50 meters, offering secure and reliable data transmission. It also provides versatile connectivity through its charging cradle.

The BSH-32B is as durable as it is functional. Its IP42-rated design and drop-resistant housing can withstand the demands of dynamic business environments. The scanner's sleek black design and Star branding,

synonymous with superior quality, complements any modern POS system.

Ideal for retail, inventory control, hospitality, QSR, and event spaces, the BSH-32B is a valuable addition to any business seeking a scanner that combines high performance, dependability, and aesthetic appeal in its POS solutions.
