

# Series 1150 Cash Drawer

## The Ultimate Space Saving Drawer

### Performance Solution

High capacity tills combined with ample media space are packaged in the smallest possible cash drawer footprint to make the Series 1150 the ultimate space saving drawer.

The unique size of the Series 1150 cash drawer allows it to be mounted directly on the checkstand deck. When installed at the correct working height and downstream from the scanner scale, this cash drawer can be located exactly at the point of payment. The Series 1150 can provide easy access for the cashier and eliminate twisting, turning and bending to reach traditional, side counter mounted, cash drawers.

A faster, friendlier, customer facing point of payment saves up to 5 seconds per payment transaction. Placement of the cash drawer in front of the cashier improves open till security.

#### Heavy Duty Steel Ball Bearing Slides

Ensures effortless performance and durability.

#### Space Saving

Unique short depth allows the Series 1150 to be mounted downstream from the scanner at the point of sale.

#### MultiPRO® Interface

The MultiPRO® Interface adapts to most POS platforms.

#### Ergonomic Solution

Provides easy access for the cashier and eliminates twisting, turning and bending to reach traditional, side counter mounted, cash drawers.

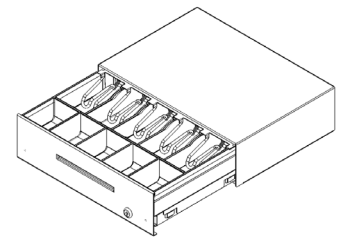

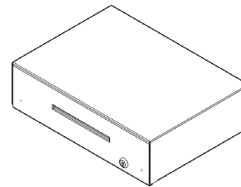

## Superior Features, Superior Function, Proven Durability

- Unique short depth cash drawer enables downstream location without infringing upon the scan path
- Placement of the drawer at deck height provides easy access without twisting, turning and bending
- Mounting on the check-out deck, under the service counter or in a reduced depth side counter, the Series 1150 is a space saver wherever it is located
- Provides surface for placement of other peripherals to allow for greater customer counter area
- Located immediately in front of the point of purchase the open till is securely attended by the cashier during payment
- The smallest cash drawer able to accommodate a full size till
- Reduced payment time increases cashier IPM
