# STEP 1

## Locate mounting position

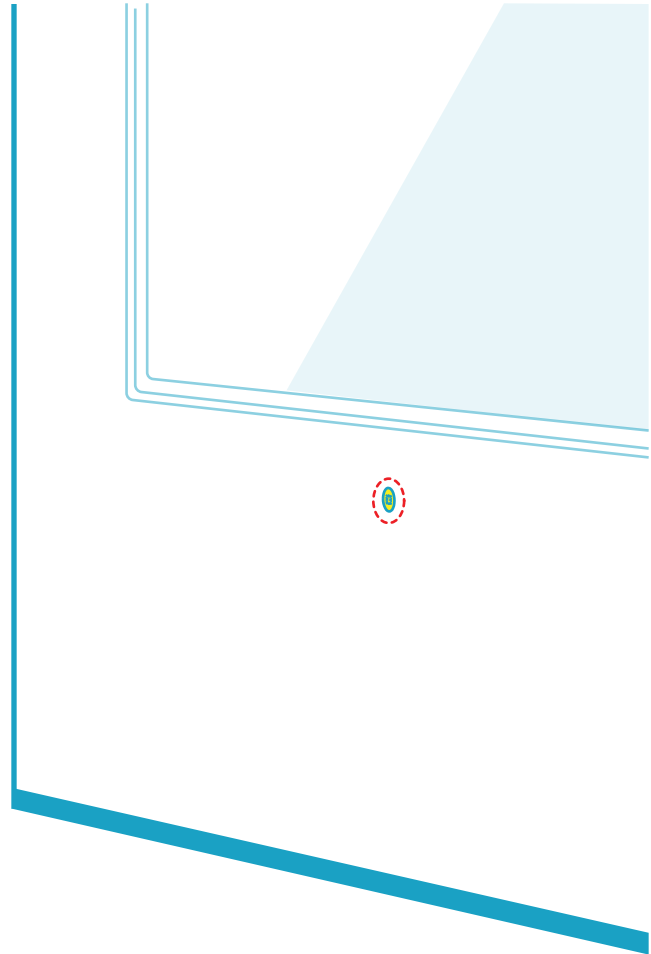

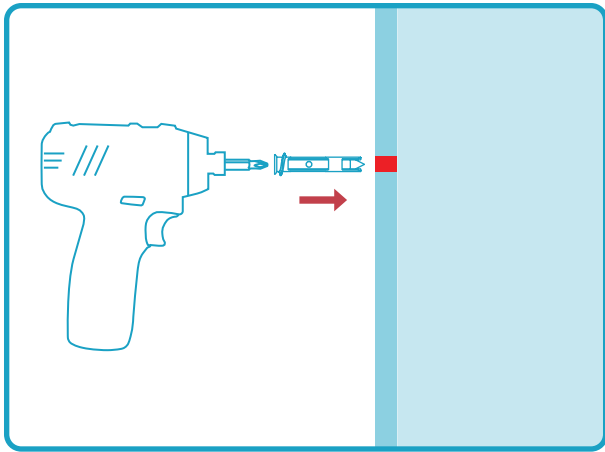

### Important Notes:

Locate and mark the ideal location for your ADA Camera Mount. It could be mounted underneath, above or beside the display.

## STEP 2

Install the wall anchor

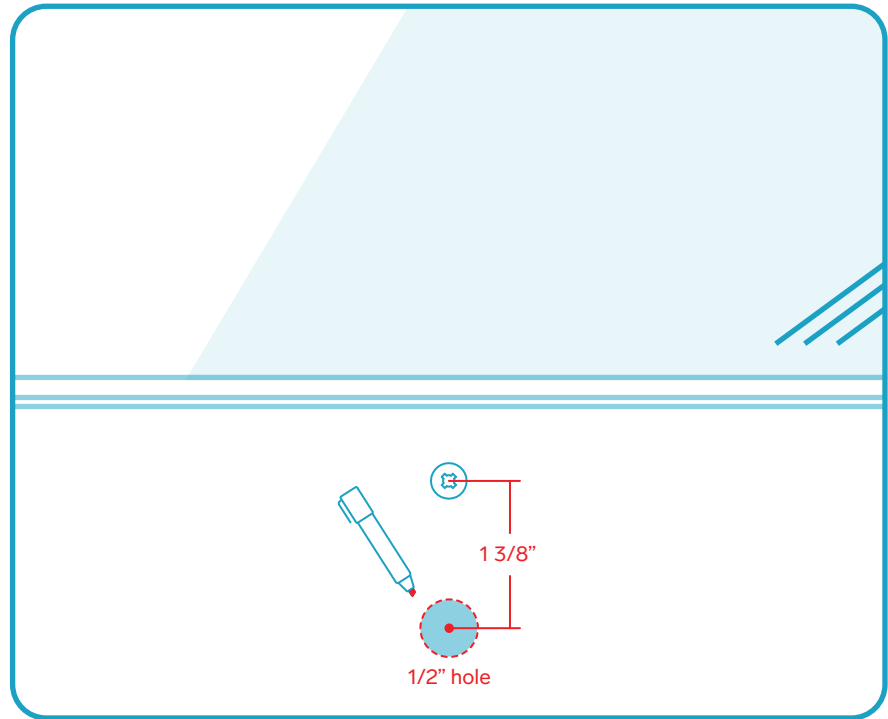

## Optional

### Mark and drill the hole

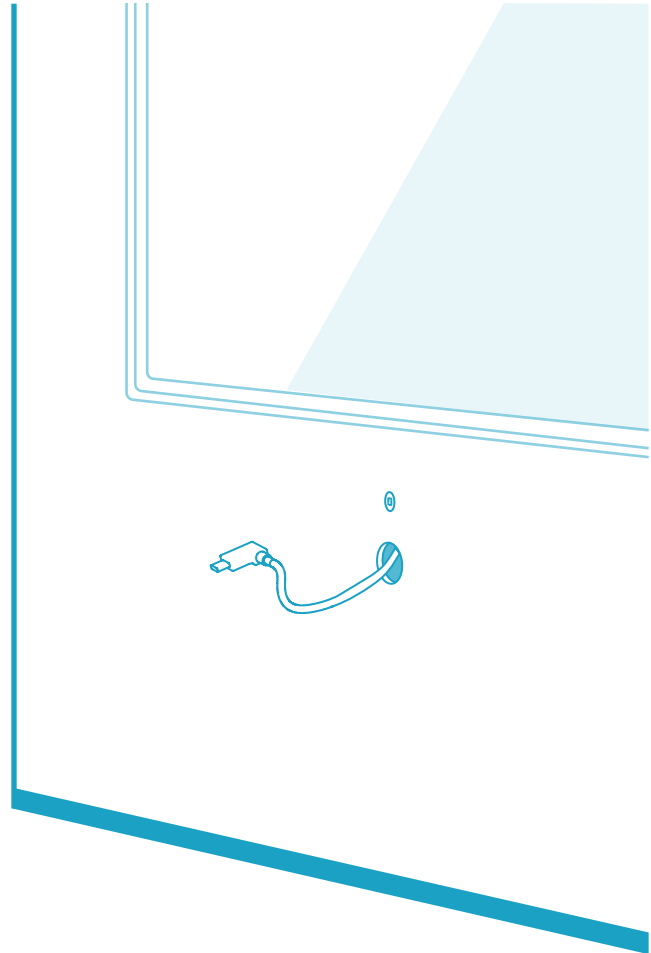

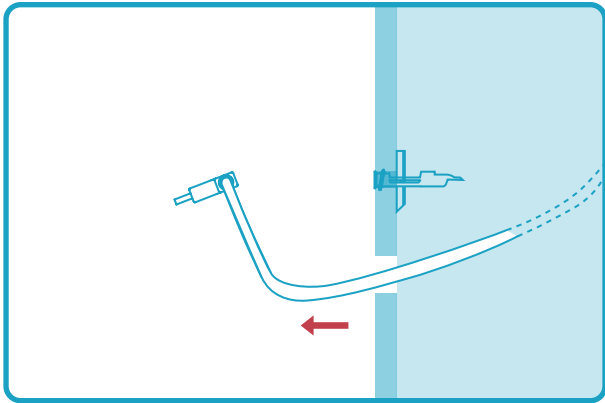

### Important:

Drill a 1/2-inch hole for the cable to pass through the wall.

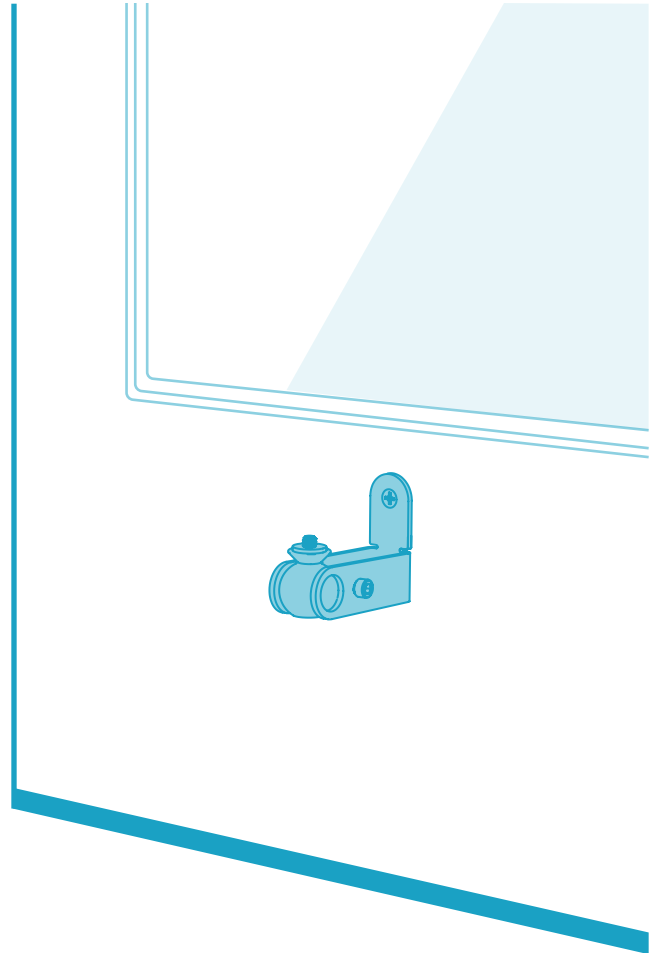

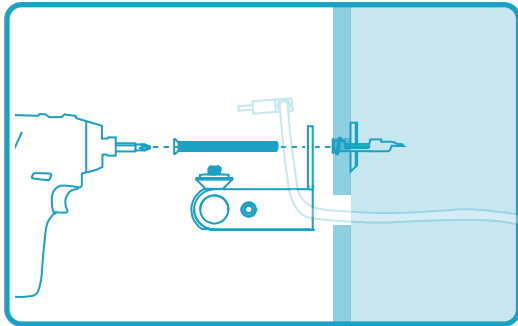

## Optional

Route the USB-C cable through the wall

## STEP 3

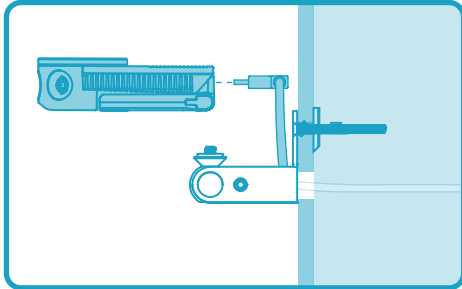

### Fasten the ADA Camera Mount

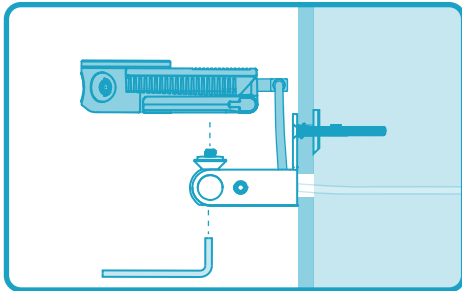

## STEP 4

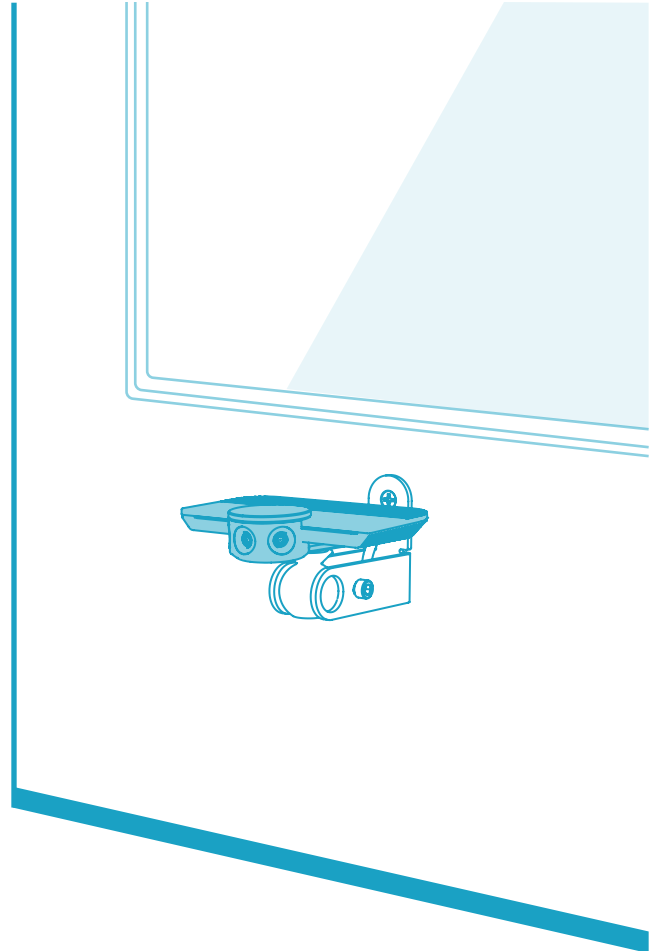

### Install the Jabra PanaCast

1. Connect the USB-C cable to Jabra PanaCast Camera.

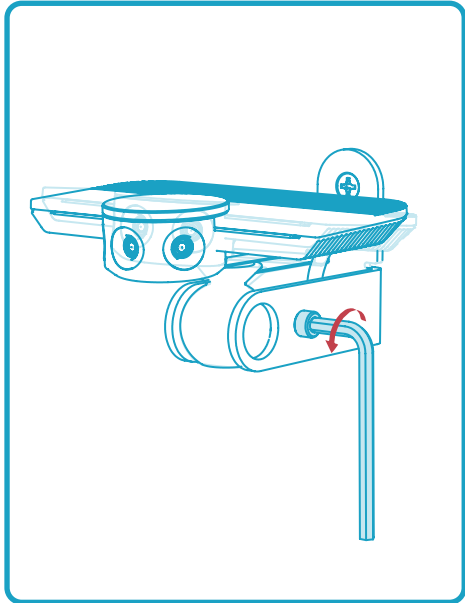

2. Fasten the camera to the ADA Camera Mount with the hex key.

## STEP 5

Adjust and set camera orientation.

Loosen the screw with the hex key to adjust camera orientation, and then tighten it.
