

## VP8300

The VP8300 from ID TECH is a secure EMV chip, magnetic stripe reader with contactless capabilities. The VP8300 is an attractively packaged customer facing countertop payment solution providing the merchant with the ability to accept all payment types including loyalty programs. The VP8300 is the perfect solution for merchants that need to support the latest payment capabilities without the additional overhead, complexities and cost of a full PINPad payment device.
