**POSIFLEX™**

Impact Resistant Glass

1280 x 800  
Resolution

Optional Integrated  
EMV Reader

**Tablet transforms into:**

- POS station with optional docking station
- Barcode scanner with optional pistol grip

## Hybrid Fixed and Mobile POS

The MT5310 is part of Posiflex's innovative, award-winning MT Series. Posiflex has bridged the fixed terminal / mobile gap with this hybrid Windows 10 IoT driven system that takes an aluminum diecast, multifunction tablet and transforms it

into a complete, compact, all-in-one POS system.

An optional pistol grip with barcode scanner can be added for additional battery life and functionality. The pistol grip and tablet — or the tablet only — can be set in the

optional docking station to create a fixed terminal or kiosk. This hybrid solution completely bridges the high standards of fixed terminals with the flexibility of being mobile as your business requires.
