

# PA768

## 6.3" 5G Rugged Touch Computer

5G & WLAN 6E | 10m Barcode Reading Distance | Hot Swappable 5100mAh Battery

Unitech introduced its first 5G rugged mobile computer, PA768, which aims to boost the operation experience with speedy wireless communication, outdoor durability for various professions in field service, transportation and logistics applications.

### A New Generation of 5G & WLAN 6E

Featuring 5G and WLAN 6E technology, the PA768 rugged mobile computer delivers incredible speed in transmissions and lower latency to give mobile workers reliable and higher speed to synchronize with the system, handling jobs more efficiently. It helps usher in a new era of speedy connection for businesses.

### Especially Designed for Outdoor Applications

The PA768 is combined with superior barcode scanning ability, sunlight-readable 500 nits display, and durable design that makes it an ideal tool to handle complex tasks with mobility and efficiency. Field service technicians can use the touch panel while wearing gloves, or wet-finger communicate real-time status with coworkers, and capture images on sites with a 16MP camera. Its all-in-one functionality allows staff to manage tasks more precisely and productively.

### Reliable at its best

The PA768 also comes with the GMS certified that makes your toughest workdays easier. Reaching IP67 enterprise protection and withstanding 1.8M drop makes PA768 a perfect tool to maximize data collection, management, and traceability in nearly every practice of transportation & logistics, field service, manufacturing, and more!

### Various Accessories

It allows users to add values to your device with the standard gun grip or unique UHF RFID gun grip. Just simply attach it, and it will deliver a convenient way to support standard barcode scanning, RFID scanning in inventory tracking and taking solutions.

### Features

- Android 12 OS with GMS certified
- Leading 5G dual SIM card enterprise handheld computer
- Support WLAN 6E : 2.4 and 5GHz frequency as well as the 6GHz band

### Development Tools

Unitech SDK

Scanner SDK

RFID SDK

Unitech offers a number of SDK toolkits for developers to write apps that can interact with the unitech devices for the mobile, scanner, and the RFID product lines.

### Device Management

### Staging and Management

MoboLink

Android Enterprise ready EMM for monitoring device health and managing apps, configs and files.

StageGO

Barcode-based device staging utility offering hundreds of script commands for you to work with.

OEMConfig

If you are using a third party EMM, OEMConfig will allow those EMM solutions to configure unitech specific settings on the device.

Enterprise Launcher

Secure your devices by kiosk them with Enterprise Launcher. Block access to the Android system and only allow limited number of apps to be run.

Battery info

Monitor advanced Battery health and manage the battery replacement cycle. Use with MoboLink to get real-time battery health alerts delivered to your phone.

Software Update

Check and install software updates online. To let a device always stay up-to-date, setup the device to automatically check and install for updates on boot up.

System Update Center

Check and install firmware updates via FOTA. You can update the firmware via online FOTA server, or by using a OTA ZIP file placed in the internal storage.

### Productivity and Utilities

USS

Configure all scanner settings with friendly user interface and enable the service to make scanning data as keypad input.

USS Profiles

USS Camera

Capture barcode data using the device camera and send the data to your applications as keyboard inputs.

KeyRemap

Reprogram physical buttons to act as another key or to launch an app.

WLAN Advanced

Configure advanced WLAN settings such as power saving mode and roaming parameters.

NTP Server Settings

Customize the NTP server setting to keep your device date and time synchronized.

UNote

A simple text viewer and editor for use in your work flows.

Startup

Auto-run apps when device boots up.

TagAccess

For versatile functions of RFID command via integrating with Unitech RFID Readers.

Unitech Scanner Utility

An Android application which helps users connect, configure and use a supported Unitech Bluetooth scanner.

Logger

An easy and fast way to get logs from a device.
